

Explore the park and the lake in this aspen and spruce mixed wood forest.

The lake is great for boating, canoeing and kayaking, as well as fishing and swimming. There are trails for walking and cycling. Across the lake, the Anzac day use area has beach and a swimming area.

Facilities in the park include power, shower facilities, a boat launch, fish cleaning stands, potable water, and a sewage dumping area. A group camping area is available, by reservation, for your family gatherings or other group events.

We hope you enjoy your stay.
