

Long Lake Provincial Park offers camping, boating, hiking and a sandy beach in summer. In winter there is access for cross-country skiing, ice fishing and other activities. This long, narrow lake surrounded by aspen, pine and spruce mixed forest is excellent habitat for songbirds and other wildlife.

Facilities include a boat launch, dock, fish cleaning stand and playground. A concession, laundry and grocery store are located in the day use area.

The White Earth Valley Natural Area borders the south end of the provincial park. For excellent wildlife viewing opportunities, head out on the 17km White Earth Trail. This path winds through a wide variety of rich habitats, where an abundance of diverse plants and wildlife thrive.

The park offers both sheltered and open sites to meet different campers' needs. Camping reservations are strongly recommended during summer months. Modern conveniences include power sites, showers and flush toilets.

Have a safe and fun-filled stay at Long Lake Provincial Park and please don't hesitate to stop and chat with our park staff.
